

**Region Ten  
Navy-Marine Corps MARS  
Portland Repeater**

**Location:** Council Crest, Portland West Hills  
**Elevation:** 1,010 ft at base of tower. Tower is 900 feet high

The equipment building is rather spacious

The Portland MARS Repeater Cabinets >>

<< You will note the duplexers (cans) vary considerably in size and design

Many, many members have dedicated much time and energy into the Portland repeater, and all the repeaters in Region Ten.

Pete, JBG, has been the stalwart champion of the repeater systems in Region Ten for nearly 20 years. Without Pete's drive we would not have the site accesses, equipment, and top notch members like TPF who keep the gear running at optimal levels.
