

List of addressing for Areas, Regions, and States.

Any member may send traffic to one of these addresses IF:

1. you have traffic for one or more staff members in that area, region, or state;
2. you have a multi addressed message to various staff or members in that area, region, or state;
3. you have third party traffic destined for that state;
4. you have traffic with a collective call sign addressee whose members are in that area, region, or state.

Only authorized members may send to the NNN0AL address.

It is not necessary to send a message to multiple addresses within an area or region. For example, say you have a message for NNN0GBP, NNN0GCC, and NNN0AS0. You need send it only to NN0R, the Region Ten address. It will get routed to Oregon and Washington as necessary.

DO NOT ATTEMPT TO LOG IN AS ONE OF THESE to see if there is any traffic for that Area, Region, or State. If you did all the traffic for that group would automatically be downloaded to you and deleted from the system. Only designated traffic reps, directors and those appointed by directors or Chief MARS are authorized to access these.

Exerpt from Chief MARS BCST 04-08, list of Area, Region, and State addressing.

Each of these must be followed by @winlink.org
e.g., NNN0AB@winlink.org for Alaska
